## How to Borrow Audiovisual Materials

Maryland Occupational Safety and Health (MOSH) offers audiovisual materials for loan, free of charge. Please review the following information before completing the Audiovisual Borrowing Agreement.

### How to Request Audiovisual Materials

MOSH lends **TWO** audiovisual materials per request. You are welcome to reserve materials in advance to have them by the needed date. Complete the Audiovisual Borrowing Agreement, located on the next page. Fax the form to MOSH at the number indicated on the form. MOSH will send your requested materials via UPS ground shipping. You may also pick-up requested materials in person at MOSH Hunt Valley office.

### Loan Period

MOSH lends audiovisual materials for **TEN** workdays. It is important that you return materials on the due date. Failure to return materials by the due date may result in loss of borrowing privileges. Please contact MOSH for an extension before the due date.

### Returning Audiovisual Materials

Audiovisual materials can be returned by mail or in-person drop-off. If you return materials by mail, you must use a traceable means such as Federal Express, United Parcel Service, or the U.S Postal Service. All materials must be insured for \$600.00 per program to cover replacement costs.

PLEASE NOTE: Simply showing audiovisual materials to your employees **DOES NOT** substitute for training required by OSHA/MOSH standards and regulations, nor does it determine the employee's level of competence; the employee's employer can only make this determination.

## Audiovisual Borrowing Agreement

By signing this Agreement, I agree to comply with the conditions set out below.

Request #1: \_\_\_\_\_

Request #2: \_\_\_\_\_

Date Requested: \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_

Date Needed: \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_

1. **I understand** that the copyright laws of the United States, Title 17 U.S. Code governing the reproduction of copyrighted materials. Private institutions, associations, or companies covered by those laws may have produced the videotapes borrowed from MOSH. I understand that these materials may not be duplicated or otherwise reproduced without the express written permission of the producer.
2. **I understand** that I must return materials borrowed by the due date, and that materials returned after that time will be considered late. I understand that the second time materials are returned after the due date, my borrowing privileges may be terminated.
3. **I accept responsibility** for the items borrowed, and will return them, together with all accessories, in good condition. I accept responsibility for the loss, non-return or negligent damage of the items, and agree that concealed or unreported damage shall be deemed negligence. I understand that I will be responsible for the replacement cost of any damaged or non-returned video and that each item may range in value from \$400 to \$900.

**I HAVE READ, UNDERSTAND, AND WILL COMPLY WITH THE CONDITIONS SET OUT ABOVE.**

## **ACCIDENT INVESTIGATION**

### **Accident Investigation: Examining the Details** by Summit Training Source

When an accident occurs it may seem that the reasons are obvious; however, the cause of an accident is almost always more complicated than it first appears.

**English & Spanish.** 18:56 minutes. DVD

### **Accident Investigation: The Cost of Accidents** by Harsco Corporation

This film shows that the safety of ourselves and those around us at work, home or leisure ultimately all depends on the decisions that we make as individuals. The main message is, before we act, **STOP AND THINK** for a few seconds about the consequences of our decision. Safe behavior can become a way of life. When it does, we, our families, friends and those around us will be able to work, rest and play in safety. **English.** 12 minutes. DVD

### **Accident Reporting: You Can Save A Life** by Coastal

Using an "It's A Wonderful Life" theme, this powerful video program teaches workers the importance of following acceptable safety standards, controlling hazards and reporting unsafe work conditions before incidents become accidents.

**English & Spanish.** 16 minutes. DVD

### **Accidents Aren't Just One of Those Things** by ERI Safety Videos

This video is designed to raise awareness of the importance of following safety procedures. It uses several real life examples of situations where people chose not to follow proper safety procedure that resulted in catastrophic injury or death.

**Spanish.** 20 minutes. DVD

### **Just the Facts: Accident Investigation** by The Associated General Contractors of America

Every contractor agrees that safety matters! This video shows contractors how to best investigate construction accidents to prevent recurrence of similar accidents.

**English.** 17 minutes. DVD

## ASBESTOS

### **Asbestos Awareness: Understanding the Risk** by DuPont

When it comes to asbestos, it's better to be safe than sorry. This program provides you with the basics of safe asbestos use. Facts, risks, uses, dangers, protection measures. **English & Spanish.** DVD

## BACKHOE

### **Backhoe/Loader Operation** by National Safety Compliance

There are the risks of accidents or injuries with any piece of machinery, and the backhoe loader isn't any different. Give your heavy equipment operator employees the training they need for success with this Backhoe and Loader Safety Training Video. It features all the information your employees need for safely operating and handling a backhoe loader on the job. This video makes a great introductory training course for any new or existing employee. **English.** DVD

## BLOODBORNE PATHOGENS

### **BBP In Your World: Don't Risk It!** by DuPont

Research shows that safety precautions have decreased the number of BBP exposures on the job. This new program teaches your staff how to minimize exposure risk by using Standard Precautions, personal protective equipment and other safe work practices. **English & Spanish.** 19 minutes. DVD

**Bloodborne Pathogens Overview** by Safety Shorts Productions, Inc.  
**English.** DVD

### **Bloodborne Pathogens/Construction** by National Safety Compliance

Designed to prevent exposure to HBV, HIV, and other bloodborne illnesses, this video explains the precautions necessary when administering first aid at a construction site. **English.** 17 minutes. DVD

**Bloodborne Pathogens: A Healthcare Refresher** by Coastal Training Technologies

This program is short and to the point! It's ideal for retraining healthcare professionals who have already received initial training. **English, Spanish, & Portuguese.** 11 minutes. DVD

**Bloodborne Pathogens: Know the Risk** by Coastal Training Technologies

Vital information on HBV, HCV and HIV, transmission, minimizing risk, housekeeping and proper waste disposal, Risk of employee exposure to AIDS, Transmission of Bloodborne disease, and good for nonhealth care workers. Includes handbook and answers to quiz. **English, Spanish & Portuguese.** 19 minutes. DVD

**Bloodborne Pathogens: Take precautions** by DuPont

Your employees can never be too careful when it comes to the risks of deadly bloodborne pathogens. The program covers the three main types of these organisms including the symptoms and routes of transmission. It discusses methods to avoid infection and ways to deal with mishaps at work. **English & Spanish.** 12 minutes. DVD

## **CHEMICAL & FLAMMABLE LIQUIDS**

**“Cylinders” Container Emergencies** by Emergency Film Group

Cylinders is part of the *Container Emergencies* series, and is designed to provide information to emergency responders and industry personnel who work with or may respond to emergencies involving compressed gas cylinders. The DVD also contains bonus material, including a 20 question self-test. **English.** DVD

**Chemical Handling Safety: Flammables** by Coastal Training Technologies

Fire is always a threat at work and flammable chemicals only increase the chances of one occurring. But with this program, your employees can take the heat out of these risks by knowing how to handle flammables properly. It covers: identification and handling, fire 101, emergency response. **English, Spanish & Portuguese.** 17 minutes. DVD

**Chemical Handling Safety: Solvents** by Coastal Training Technologies

Illustrates how knowledge and preparation, plus good work practices, will let you get the most of these materials and help keep you working safely. Covers common solvents, solvent hazards, protecting yourself, and accidents and emergencies.

**English, Spanish & Portuguese.** 16 minutes. DVD

**Hazardous Chemicals and Materials in Schools for Teachers** by The Training Network

Teachers must learn the hazards associated with the various chemicals found in the school environment and take responsibility for safety. Defines chemical terminology, encourages reading of labels and MSDS and gives many tips to avoid contamination. Also covers asbestos safety and emergency preparedness. **English.** 14 minutes. DVD

**HazWoper: First Responder Awareness Level** by DuPont

This program is designed to help you reduce the potential hazards of working in a healthcare environment, this program speaks to various hospital settings in which healthcare workers may come into contact with hazardous chemicals in the workplace. **English & Spanish.** 15 minutes. DVD

**Pocket Guide to Chemical hazards** by NIOSH

The *NIOSH Pocket Guide to Chemical Hazards* (NPG) informs workers, employers, and occupational health professionals about workplace chemicals and their hazards. The NPG gives general industrial hygiene information for hundreds of chemicals/classes. The NPG clearly presents key data for chemicals or substance groupings (such as cyanides, fluorides, manganese compounds) that are found in workplaces. The guide offers key facts, but does not give all relevant data. The NPG helps users recognize and control workplace chemical hazards. **English.** DVD

**Small Spills and Leaks** by DuPont

This program focuses on controlling small spills and leaks and covers the essential procedures employees need to follow if a leak occurs on their shift. **English & Spanish.** 14 minutes. DVD

**U.S Chemical Safety Board** by U.S Chemical Safety and Hazard Investigation Board

“The CSB Safety Videos are known around the world for their forceful depiction of the events that lead to deadly releases, explosions and fires, and their clear explanations of the root causes of the accidents – all derived from the high-quality detailed investigations carried out by CSB staff. We believe the new three-disc set, including our latest videos, will facilitate distribution and bring safety awareness to an even higher level.” **English.** Set of 3 DVDs

## **CONFINED SPACES**

**Clearing the Air: Confined Space Entry** by The Associated Contractors of America

This video discusses the potential dangers of confined space entry and shows how to enter confined spaces freely. **English and Spanish.** 17 minutes. DVD

**Confined Space Entry** by Blueprints for Safety

To avoid serious hazards associated with a confined space entry, employees must be quick-thinking and fast-acting with their response. In fact, according to recent studies, more than half of all confined space fatalities are would-be rescuers. A safe, easy-to-follow confined space program is life-and-death critical to the safety of your employees. **English and Spanish.** 17 minutes. DVD

**Confined Space Entry: Permit Required!** by DuPont

Help protect your employees from the dangers of working in confined spaces. This best-selling program addresses OSHA 1910.146 and reviews the details on how to prepare a confined space entry permit. It also offers suggestions for training a confined space entry team. **English.** 23 minutes. DVD

**Confined Spaces: Risks and Responsibilities** by Wumbus

Failure to closely follow rules, regulations and confined space safety standards can just about guarantee serious injuries and even death. This video program is designed to provide you with the safety basics involved in confined space entry. Covers the OSHA standard 1910.146 (d). **English & Spanish.** 19:29 minutes. DVD

**Hi-5 Permit Required Confined Spaces** by Aurora

**English.** 6 minutes. DVD

# CONSTRUCTION

## **Bucket Trucks: Extending Your Safety** by Coastal Training Technologies

Bucket trucks make working at high elevations easier but if they are not operated safely, major accidents can occur. Use this vital program to keep your bucket truck operators safe. Covers such topics as operator training, pre-start inspection, PPE, and electricity. **English, Spanish & Portuguese.** DVD.

## **Construction Disaster Drill** by Medcor, Inc.

Behind the scenes footage from one of the largest construction site disaster drills ever conducted. More than 500 people participated in this training exercise - most of whom did not know it was a drill. This video documents actual responses from contractors, fire, rescue, and media personnel. Viewers will gain rare insight into the construction safety profession and hear commentary from expert evaluators.

**English.** 43 minutes. DVD

## **Construction Safety: Choice or Chance** by Building & Construction Trade Department

This video shows the four most common causes of deaths from injuries: falls from heights, electrocution (power line contact), struck by, and caught between. The video follows an ironworker and laborers to a job site, stressing to employers and workers the need for safety training, PPE, procedures that avoid shortcuts, and the right to refuse unsafe work. **English.** 15:15 minutes. DVD

## **Flagger Safety** by Labor & Industries

Depicts Washington State rules and regulations regarding work zone safety. This video/DVD will be designed to reinforce proper safety procedures and set-up emphasizing flagger and other work zone workers safety on Washington roads.

**English.** 17:51 minutes. DVD

## **Introduction to Safety: Construction Industry** by Safety Shorts.

**English.** DVD

## **LiftPod in Action** by JLG

**English.** 11 minutes. DVD

### **Man Baskets in Construction** by DuPont

Massive equipment like cranes or derricks can be too big to handle for your employees. But not when they learn the proper procedures for hoisting. This program will teach them handy tools to make these unwieldy machines more manageable. **English.** 12 minutes. DVD

**OSHA Construction Industry Regulations: 29 CFR 1926** by OSHA Mancomm  
**English.** Set of 2 DVDs

### **Roadway Safety: A Road Construction Industry Consortium Training Program** by U.S Department of Transportation

The Roadway Safety Training Program provides two levels of instructional modules. The first Basic Awareness modules presents an overview of common hazards in highway or road construction and simple prevention measures. The second Advanced Modules is a presentation for supervisors, managers, and others responsible for work zone design, set up, and control. RSP is designed for use by supervisory personnel with safety and health experience or by safety and health personnel to orient new workers as they arrive on the jobsite. **English.** DVD

## **CRANES & RIGGING**

### **Crane and Lifting Devices** by CLMI

The best equipment in the world isn't safe until you learn how to use it. This is especially true with cranes and lifting devices. This video covers how to inspect the equipment to make sure it is safe to use. It also covers other basic rules when using cranes and lifting devices. **English & Spanish.** 11 minutes. DVD

### **Crane Hand Signals** by ACRA Enterprises, Inc.

This course is designed as an introduction to communications required for crane operation. Upon completion of this course, the trainee should be able to identify the various hand signals used to communicate with operators. They should also be aware of other voice and audible signals that can be used to properly communicate with the crane operator. **English.** DVD

### **Crane Rigging Safety** by Wumbus Corporation

Everyone working near or with a crane needs to be properly trained in their area's responsibility. In this video you will learn how to rig a safe lift. This includes selecting slates and hitches, setting up the rigging and stabilizing the load. **English.** 17:31 minutes. DVD

### **Mobile Crane Safe Operation** by Summit Training Source

Keep your cranes productive, not destructive! Train your crane operators to operate their machinery properly to help reduce the number of injuries and accidents on the worksite. **English & Spanish subtitles.** 15 minutes. DVD

### **Move It! Rig Move Safety for Roughnecks/Truckers** by NIOSH

The audience for this product is land-based oil and gas drilling and service workers. This video covers rig move safety for Roughnecks in the oil and gas fields. It helps make sense of the organized chaos that accompanies a rig move and highlights some easy ways to lower the risk of being injured or killed when moving to a new location. **English.** DVD

### **Overhead and Gantry Cranes** by DuPont

This video will help you increase your employee's awareness of the hazards of working with or around cranes and will help your organization comply with OSHA standard 29 CFR 1910.179. Show maintenance crews, operators and riggers specific ways they can work safely around these hazardous machines, including pre-operational and periodic inspections. It also covers the proper way to rig and move a load. **English, Spanish & Portuguese.** 20 minutes. DVD

## **DISEASES**

### **Anhydrous Ammonia** by DuPont

Ammonia plays a crucial role in making many of life's necessities, but it can be very toxic -- even deadly. Get a fine formula for safety with this program. It covers basic facts about the substance, discusses personal protection measures and outlines highly effective emergency guidelines. **English & Spanish.** DVD

**Poison Oak and Ivy Training** by TEC Laboratories Series

This video makes plant identification, prevention and treatment of poison oak and ivy easy to understand and simple to put into action. The suggestions for preventing a rash, early identification and treatment of symptoms will help reduce worker lost time and misery. **English.** 11 minutes. DVD

**Silica Exposure: It can leave You Breathless** by CMLI Safety Training

This video highlights the use of silica in the construction industry, its effects on the body and how workers can protect themselves from the hazards associated with silica exposure. **English & Spanish.** 13 minutes. DVD

**Silicosis: A preventable Disease** by U.S Department of Labor Mine Safety

In this video we will see a doctor answer questions about the health effects of silica exposure. **English & Spanish.** 17 minutes. DVD

**What does the term Silicosis mean to you?** by U.S Department of Labor Mine Safety

This video is designed to raise awareness of silicosis in the workplace and to stimulate a discussion of the disease. **English & Spanish.** 13 minutes. DVD

## **ELECTRICAL SAFETY**

**Arc Flash: Live To Tell** by DuPont

Did you know that in the extreme temperatures of an arc flash blast metal vaporizes? The sound can reach 160 decibels causing permanent severe hearing damage. Make sure your workers never experience the devastation of an arc flash explosion. This potentially life-saving training program will bring you and your workers up to speed on the latest version of NFPA70E. **English.** 16 minutes. DVD

**Electrical Hazards: Avoid the Risk** by DuPont

Never be in the dark about safety. Show your employees these illuminating guidelines on electrical circuits, proper grounding procedures and lockout/tagout methods to control electrical flow. **English & Spanish.** 20 minutes. DVD

**Electrical Safety for Non-Electricians** by CLMI Training Safety

This video covers basic electrical safety precautions that all workers must be aware of. Viewers will learn what electricity is, how it can harm you, what hazards to look out for and how to protect themselves and others. **English & Spanish.** 18 minutes. DVD

**Electrical Safety: Basic Principles** by Coastal Training Technologies

Anyone working with electricity must know and apply basic safety principles and proper emergency procedures. This popular program defines common electrical terms and explains housekeeping and circuit protection devices. **English.** 15 minutes. DVD

**Electrical Safety: Beware the Bite!** by Coastal Training Technologies

An electrical shock is like the bite of a poisonous snake! Take the sting out of the danger now and protect your employees with life-saving information. Sink your teeth into this program that gives the low-down on electrical safety. **English.** 21 minutes. DVD

**Electrical Safety: Controlling the Hazards** by Summit Training Source

Featuring footage from a variety of workplace settings, this program teaches any type of worker how to identify potential electrical hazards, as well as steps to take to prevent electrical incidents from happening in the first place. **English.** 13 minutes. DVD

**Electrical Safety: NFPA 70E** by Summit Training Source

NFPA 70E will train employees on the hazards of working with electrical currents. **English & Spanish.** 17 minutes. DVD

**Ground Fault Circuit Interrupter** by National Safety Compliance

This production designed to train all employees in the use of GFCI's. It explains how the system works and the elements of the mandatory GFCI written program. **English.** 11 minutes. DVD

**High-Impact Life and Death Series Electrical Safety** by CLMI Training Safety

This dynamic video will help your employees re-focus on the lifesaving power of lock-out/tag-out by showing life and death consequences of inappropriate actions. Employees discover how lock-out mistakes cause serious injuries and death. **English.** 19 minutes. DVD

**Shock Proof: Qualified Employee** by Summit Training Source

This program features scenes from a wide variety of workplace settings, making it relevant to all types of workers. Covers how to recognize electrical hazards; safety practices to reduce the risk; and best safety practices when working on energized parts. **English.** 16 minutes. DVD

**Shock Proof: Unqualified Facilitator Guide** by Summit Training Source

**English.** 16 minutes. DVD

## **EMERGENCY RESPONSE**

**Coaching Safety Performance: Job Safety Analysis** by Coastal Training Technologies.

Job Safety Analysis (JSA) is a way of planning ahead, a way to spot problems before they become accidents. JSA focuses only on those steps that create a hazard to the safety or health personnel. This program is designed to help prepare a JSA.

**English & Spanish.** DVD

**CSB Safety Videos: Anatomy of a Disaster and Half an Hour to tragedy**

Part one: Anatomy of a Disaster tells the story of one of the worst industrial accidents in recent U.S. history--the March 23, 2005, explosion at the BP refinery in Texas City, Texas, which killed 15 workers, injured 180 others, and caused billions of dollars in economic losses.

Part two: Four people were killed and five others were seriously injured when propane vapors from a storage tank ignited and exploded at the Little General convenience store and gas station in Ghent, West Virginia. Propane was used as fuel inside the building, which was destroyed. **English.** DVD

**Disaster Planning: Defuse the Time Bomb** by DuPont

Whatever the disaster, your facility must react effectively to save lives, treat casualties and maintain high quality patient care. This program will teach your employees how to stay alert to preventing disasters such as fires, explosions and violence. Covers parts of OSHA 1910.38 and Joint Commission EC.1.6,1.7.

**English & Spanish.** 21 minutes. DVD

**Emergency action plan: Crisis under control** by DuPont

Disasters - natural or man-made - can occur anytime, and an Emergency Action Plan must always be at hand to help your employees respond to the situation. It is essential not only for OSHA compliance but also for survival and minimization of loss. Cook up a strategic emergency plan by following the guidelines in this program. **English & Spanish.** 16 minutes. DVD

**Emergency evacuation getting out alive** by Coastal Training Technologies

In an emergency situation, safety and survival hinges on adequate training, preparation and an emergency action plan. This program explains several emergency situation responses, the importance of drills and the principles of RACE. It prepares your employees to handle any disaster - natural or otherwise and covers: how to respond in several emergency situations, the importance of drills, and RACE. **English & Spanish.** 15 minutes. DVD

**Emergency Preparedness** by CLMI Safety Training

When an emergency happens at your facility, employees need to know what to do and react in a way that protects them from harm. Emergency Preparedness looks at 4 common types of emergencies: Medical, Fire, Weather and Earthquakes. Each of these are reviewed along with the common responses that employees need to know. **English.** 14 minutes. DVD

**Emergency Preparedness: An employee's responsibility** by Wumbus Corporation

It is an employee's responsibility to prepare for an emergency. This video will use the acronym YIPPI to go over the five elements required in order to safely prepare for an emergency in the workplace. **English & Spanish.** 22:49 minutes. DVD

**Hi -5 What's Wrong with This Picture** by Aurora pictures

**English.** 10 minutes DVD.

**Job Safety Analysis: Step by Step** by The Associated General Contractors of America

The goal of a job safety analysis is to document how a particular job should be done safely. This program includes: how a JSA is performed; how to break down a job into basic steps; hazard identification, assessment and control. **English.** 10:30 minutes. DVD

**Jobsite Safety Video** by National Association of Home Builders

The first ever English-Spanish jobsite safety orientation video for home builders! Two 20-minute videos on DVD, one in English, the other in Spanish, provide an overview of the key safety issues residential builders and workers need to focus on to reduce accidents and injuries. Based on the NAHB-OSHA Jobsite Safety Handbook, this DVD is intended to be used as part of an essential residential construction safety-training program. It covers personal protective equipment, lifting safety, scaffolding, trenching and excavation, vehicles/mobile equipment, housekeeping, stairways and ladders, fall protection, tools and equipment, electrical safety and hazard communication. **English & Spanish.** 20 minutes. DVD

**ERGONOMICS**

**Ergonomic Employee Training Refresher** by Aurora pictures  
**Spanish.** DVD

**Hi-5 ergonomic employee training** by Aurora pictures  
**English.** 11 minutes. DVD

**Industrial Ergonomics** by National Safety Compliance. Safety meeting Kit Series  
Cover recognizing ergonomic problems, potential adverse effects and pragmatic solutions employees can use to address to these problems. It focuses on potential ergonomic problems in manufacturing, assembly and warehouse situations. Topics covered include: physiology of the body, parts of the body most affected, eyestrain, pragmatic preventative measures, correct use of office equipment, exercises and stress. Includes quiz, poster and booklet. **English.** 13 minutes. DVD

**Musculoskeletal Documents: Preventing Work-Related Disorders** by NIOSH.  
Covers several topics involving work-related disorders, including ergonomics, lifting safety, and the elements of ergonomic programs. **English.** CD-ROM

## **EXCAVATIONS & TRENCHING**

### **Excavations: Safe Work Essentials Training Video Program** by Summit Training Source

Countless excavations are performed each day, in fact; at least 3 people are killed every month in the United States from excavation related accidents. This informative training program educates workers that every soil is different, no two excavations are the same, and every situation can be hazardous. Summit's Excavations: Safe Work Essentials training program ensures that all worksites and workers are aware of the hazardous injuries that can occur from excavation.

**English & Spanish.** 16 minutes. DVD

### **In The Trenches: Excavations Safety for Workers** by General Contractors of America

This video teaches the viewer how to work in and around excavations and trenches safely.

**English.** 15 minutes. DVD.

**Trenching & Excavation Safety: The Scott May Story Freshener** by Aurora Trenching and excavation work--it's the starting point of most construction projects. Before you dig, there's a lot you need to know, because the risks, just like the weight of the soil, are too great to take a chance. This type of work is dangerous, with more than 100 workers killed in trench accidents each year. **English & Spanish.** 19 minutes. DVD

**Trenching and Shoring Safety Competent Person English** by The Training Network Competent Person - Trenching and Shoring program focuses on the safety training of the competent person. It occurs year after year, workers needlessly dying in trench cave-ins. The tragedy lies with the fact that these workers should have never have been in a situation in which their lives were on the line. Based on National Institute for Occupational Safety and Health statistics, an average of 60 workers die in cave-ins annually. According to NIOSH, these deaths are entirely preventable. **English.** 25 minutes. DVD

**Trench Safety Awareness Training: Trench Protective Systems Use and Management** by NIOSH **English.** DVD

### **The Buried Truth Uncovered** by Safety Awareness Solutions

Construction worker, Eric Giguere, tells the story of how he was “buried alive” while working in a trench. He explains the circumstances and events surrounding his accident and the profound effects it has had on him and his family. Eric speaks from the heart with a desire for you to learn from his death-defying safety message. He has a very genuine approach and a passionate desire to use his presentation to help others avoid similar life threatening experiences. **English.** 42 minutes. DVD

## **EYE PROTECTION**

### **Eye Safety: No Second Chances with Facilitator Guide** by Summit Training Source

Training on proper selection and use of eye protection works best when it also motivates workers to consistently use the equipment. Scenes from a variety of job sites show several situations where eye protection is needed and used correctly.

**English.** 20 minutes DVD

### **Eye Protection: Why Gamble?** by DuPont

Do not turn a “blind eye” to the possibility of accidents occurring! Take a look at this award-winning program and see the ways to avoid eye injuries. The program also outlines emergency procedures and complies with OSHA's Eye Protection Standard 1910.133. **English & Spanish.** 14 minutes. DVD

## **FALL PROTECTION**

### **Fall Protection Video** by National Association of Home Builders

Use this video to train workers on how to safely perform some of the most hazardous jobs in home building. See demonstrations of safe work practices and equipment use in ways that meet OSHA s requirements. The Fall Protection Video covers: Ladders, Fall Protection Systems, Framing Operations, Roofing Operations, Safe Work Practices. The video highlights key prevention measures through the use of guardrails, personal fall arrest systems, slide guards, safety nets, aerial and fork-lift baskets, and other safety equipment. **English & Spanish.** 30 minutes. DVD

**Fall Protection: Preparation, Application and Safety** by Wumbus

Falls from any height can be dangerous. OSHA requires fall protection whenever you are working 6 feet or higher. This video goes over the different types of fall protection, when to use them and how to use them properly so that they can help avoid accidents. **English & Spanish.** 19:56 minutes. DVD

**Fall Protection: The Right Connection** by DuPont

In buildings and on scaffoldings, the dangers of falling run high and your safety standards have to tower above the risks. Heighten yours and your employees' awareness now with this highly valuable information on fall protection equipment, safety measures and fall emergency response. Available in **English & Spanish.** 19 minutes. DVD

**Heightened Awareness: Fall Protection in the Construction Industry** by Associated General Contractors of America

This DVD video is an excellent resource to help you comply with OSHA's Fall Protection Standards for construction. Make sure your employees know the eight types of fall protection: guardrails, safety nets, personal fall arrest systems, warning lines, controlled access zones, safety monitors, and a fall protection. **English.** 20 minutes. DVD

**Man Overboard: Prevention and Recovery** by NIOSH

NIOSH, in cooperation with AMSEA and Alaska Sea Grant, has created this video designed to help crew prevent and respond to man overboard events. It features interviews with fishermen about experiences with falling overboard, and explains how to successfully recover a person in the water. **English.** 18 minutes. DVD

**Personal Fall Protection: One Step Beyond**

Each Year, on average, between 150 and 200 workers are killed and more than 100,000 are injured as a result of falls. This training program, which is based on Subpart M, will show general industry employees how to protect themselves from such fatal falls. **English, Spanish and Portuguese.** 13 minutes. DVD

**Residential Construction Fall Protection** by West Virginia University Safety and Health

**English.** Set of two DVDs

### **Safety Matters: Walking Working Surfaces** by DuPont

Falls from both heights and the same level are continually one of the leading causes of work-related injuries and deaths. This video will inform employees about situations that can cause an individual to fall or lose their footing. In addition, the program will discuss how walking and working surface incidents happen and offers best practices to avoid injuries and keep safe on the job. **English.** DVD

### **Slips & Falls in Construction** by National Safety Compliance

Using a proactive approach, this program highlights the individual's responsibility for injury prevention. **English.** 10 minutes. DVD

### **Take Pride in Your Job: Fall Protection & Seat Belts** by NIOSH

The audience for this product is land-based oil and gas drilling and service workers. This video encourages oil and gas extraction workers to use fall protection and never be "un-clipped" and thus vulnerable when at height. The video features oil and gas extraction workers talking about their use of fall protection and sharing their personal stories about why fall protection should always be worn when working at height. The purpose of the video is to raise awareness of fall injuries in this industry and to provide information about the use, proper fit, and inspection of fall protection. This video is designed to be used in pre-shift or weekly safety meetings. **English.** 10 minutes. DVD

## **FIRE PROTECTION**

**Fire Extinguishers: How and When To Use Them** by CLMI Training Program  
**Spanish.** DVD

### **Fire Extinguisher: Ready to Respond** by CLMI Training Program

Since fire is one of the most common hazards in the workplace, it is important for your employees to know how to properly use a fire extinguisher if a fire should break out. This program will teach your employees how to calmly and effectively deal with fires and correctly use a fire extinguisher. **English.** 13 minutes. DVD

### **Fire Prevention** by Safety Shorts Production

Basic fire prevention is to control or isolate sources of fuel and heat to prevent a fire or combustion. Fire prevention can protect employees and prevent loss of life.

**English.** DVD

### **Fire Prevention and Emergency Evacuation** by The Training Network

Existing OSHA emergency evacuation guidelines and fire safety rules call for all facilities to meet a number of Emergency Preparedness/Crisis Management requirements. This two-part program covers both Fire Prevention and Emergency Evacuation and is designed to assist companies in training their employees so they are in compliance with these regulations and help them prepare for a potential emergency situations. **English.** 17 minutes. DVD

### **Fire safety: Alert, Aware, Alive** by DuPont

The heat is off with this program. Show your employees potentially life-saving information on the different types of fires, how they can be prevented and what should be done in case of a fire. **English & Spanish.** 16 minutes. DVD

### **Fire Safety: There's No Second Chance** by DuPont

Do NOT let fire burn away your organization, your profits, and your employees' lives. This program presents vital training points on the elements and classes of fire, the proper use of fire extinguishers and emergency action plans. It also explains: elements and classes of fire, fire prevention, how to extinguish a fire, and Emergency Action Plan. **English, Spanish & Portuguese.** 20 minutes. DVD

## **FIRST AID & CPR**

### **Basic First Aid: Part I** by Safety Shorts

Everyone should know basic first aid. An overview of basic first aid procedures. **English.** DVD

### **Basic First Aid: Part II** by Safety Shorts

Your actions during the early moments of a medical emergency are critical. Be prepared by learning basic principles of emergency response and first aid. **English.** DVD

**First Aid: Prepared to Help** by DuPont.

Being first on the scene of a workplace accident can be cause for panic and become stressful very quickly. But with the training provided in this program, you can be confident that your employees can keep their cool, respond swiftly and apply life-saving measures. Get first-aid tips and and learn these emergency response principles: survey the scene, send someone to call for emergency response help, calm yourself and gain the confidence of the victim, and assess the victim's condition. **English & Spanish.** 16 minutes. DVD

## **FORKLIFTS**

**Forklift Operator Safety Training** by National Safety Compliance

OSHA has promulgated the Final Rule for Powered Industrial Truck Operator Training [29 CFR 1910.178(l)], which became effective March 1, 1999. The standard requires operator training and licensing as well as periodic evaluations of operator performance. The standard also addresses specific training requirements for truck operation, loading, seat belts, overhead protective structures, alarms, and maintenance of industrial trucks. Refresher training is required if the operator is observed operating the truck in an unsafe manner, is involved in an accident or near miss, or is assigned a different type of truck. **English.** DVD

**Forklift Safety Videos** by Washington State Department of Labor & Industries  
Videos include: Forklift Pedestrian Safety, Stay in the Cage, The Silent Killer: The Dangers of Propane Power Forklifts. **English & Spanish.** 30 minutes. DVD

**Forklifts: Understanding The Risks** by DuPont

This video describes the common hazards of operating forklifts. It reviews the importance of understanding how to correctly operate forklifts, factors that can lead to incidents, and the importance of inspecting vehicles before and during operation. **English & Spanish.** 16 minutes. DVD

## **HAZARD COMMUNICATION**

### **Hazard Communication: Satisfying the OSHA Standard** by Wumbus

This video will go over the information needed in order to safely protect yourself from hazards associated with the use, transportation, machinery and disposal of dangerous chemicals. **English & Spanish.** 27 minutes. DVD

### **Hazard Awareness: Ready Day One** by DuPont

This video is a safety readiness program designed for all levels of employees. It covers important information around hazard communication, personal protective equipment (PPE), emergency response and worker involvement. It serves as a good reminder that in order to work safely, employees must plan for safety and be ready for anything that may occur. **English.** 15 minutes. DVD

### **Right to Know** by Summit Training Source

Hazard communication training on MSDSs, as well as terms and labeling compliance. **English** 6 minutes. DVD

### **HMH Hazard Communication** by Summit Training Source

**English.** 14 minutes. DVD

### **GHS/ Hazard Communication in-depth Training Kit** by National Safety Compliance

**English & Spanish.** DVD

### **HazMat Awareness** by DuPont

**English.** DVD

**Hazard Communication: The Road to Safety** by Coastal Training Technologies  
OSHA regulations are strict and, if violated, can be costly. The road to safety and compliance starts with this program, which offers vital information to help your employees identify hazards and understand warning labels and MSDSs. It contains sections on: identifying potential hazards, warning labels and MSDSs. **English.** 16 minutes. DVD

**Hazard Communication: The Message is Safety** by Associated General Contractors

This DVD is essential as an orientation for your construction workers, explains the Hazard Communication Standard. **English.** 15 minutes. DVD

**Preventing Injury Incidents On The Job Site** by National Safety Compliance  
Purposes of this program include increasing safety awareness and improving personal accountability for behavior on the job. **English.** 9 minutes. DVD

## **HEAT & COLD STRESS**

**Heat stress** by Coastal Training Technologies  
**English.** DVD

**Heat Stress Don't Lose Your Cool** by Coastal Training Technologies  
In outdoor work, it's important to keep one's cool – literally. Heat stress may sound like a minor inconvenience, but under blazing temperatures, people can suffer heat stress, illnesses, injuries, accidents and even death. **English & Spanish.** 14 minutes. DVD

**Heat stress facilitator guide** by Summit Training Source  
**English.** DVD

**Heat Stress: Staying Healthy, Working Safely** by Wumbus  
Designed for workers who operate in excessive heat conditions, this video illustrates the potential hazards of heat stress-which can be fueled by dehydration-and how best to prevent them. These hazards include heat cramps, heat exhaustion and heat stroke, and are depicted in a series of incident reenactments. **English.** 15 minutes. DVD

**Hypothermia** by Summit Training Source  
The program features contractors, maintenance workers, operators, and utility and delivery workers, the program creates an awareness and respect for the hazards associated with overexposure. **English.** DVD

**Working Safely In Hot Environments** by CLMI

This video covers dangers associated with working in hot environments. These include heat stress, heat cramps, heat exhaustion, and heat stroke. **Spanish.** 15 minutes. DVD

## **HUMAN BODY**

### **Foot Protection** by Summit Training Source

This training program demonstrates to your workers that safety starts from the ground up; filmed on-site using real workers. Foot Protection presents multiple work environments where your workplace may encounter foot hazards. **English & Spanish.** 16 minutes. DVD

### **Hearing Conservation: What Do You Want to Hear?** by Summit Training Source

This program will help prevent hearing loss and the associated costs at your site by creating an awareness and respect for noise hazards and motivating employees to protect their hearing. **English & Spanish.** 14 minutes. DVD

### **Sprains & Strains: Laying Stones** by Resource Center Loan Program

This video shows how overexertion at construction sites can lead to worker injuries. The video will also show what employers must do so that the work can be done more safely. Employers have a responsibility to provide a safe workplace and required protective equipment. You'll see that taking the right protective steps can help prevent these injuries. **English & Spanish.** DVD

### **Sprains & Strains: Pulling Cable** by Resource Center Loan Program

In this video, an electrician is standing on an elevated platform that reduces stress on his neck and entire body and a mechanical wire puller to get the wire he needs a lot easier. Had he avoided this and only used a ladder to reach up, the stress would have caused major strains that can easily be prevented. OSHA's ergonomic guidelines like the ones shown in this video are simple steps to avoid long-term injuries on you and your employees while at work. **English & Spanish.** DVD

## **HOUSEKEEPING**

### **Groundskeeping Safety: Be a Pro** by DuPont

As professional groundskeepers know, maintaining lawns, trees and shrubs requires potentially dangerous equipment and chemicals. Prune and refine your safety measures with this program. It explains how one can avoid unnecessary accidents by thinking: safe? or sorry? It also covers: general checklist for safety; tractors, riding mowers, push mowers; trim and brush-cutting equipment/blowers; checklist for hazardous materials. **English & Spanish.** DVD

### **Housekeeping & Teamwork in Industry Refresher** by Aurora Pictures

Safe housekeeping, storage of materials, equipment clean up. **English.** 18 minutes. DVD

### **Housekeeping: It Ain't Like the Movies** by DuPont

*This video* demonstrates how poor housekeeping and bad cleaning habits can contribute to a dangerous and hazardous work environment. Employees will learn how to prevent accidents and occupational injuries by learning how to properly eliminate clutter, how to store materials correctly, and how to deal with spills and leaks. **English & Spanish.** 15 minutes. DVD

### **Housekeeping on the Job Site** by National Safety Compliance

This program emphasizes individual responsibility, importance of housekeeping and how to improve overall safety efforts. **English.** 10 minutes. DVD

## **INDUSTRIAL HYGIENE**

### **Healthcare-Associated Infections: Prevention & Control** by DuPont

According to CDC statistics, HAIs have endangered more a 1 million patient resulting in 99,000 deaths annually. The costs the healthcare facilities can be staggering! With this new program, your staff will learn the common HAI causes and detailed prevention measures which include: PPE, CDC Standard Precautions, contact, airborne, transmission, droplet-based. **English & Spanish.** 22 minutes. DVD

### **Infection Control Essentials: Every Action Counts** by DuPont

There are many infection control measures, but does your staff know them all? Give them a complete and detailed anti-infection system with this program. It surveys the entire gamut of practices that will help contain the spread of MRSA, VRE, BBPs, and other HAIs in your facility. **English & Spanish.** 21 minutes. DVD

## **LABORATORY SAFETY**

### **Lab Safety: Under the Hood** by DuPont

Lab work is tricky enough. Don't let your employees add to the complexity by ignoring safety measures. Doing so can only cause accidents. Teach your employees to identify potential lab hazards and keep everyone safe. With this program, employees can use and understand their employer's Chemical Hygiene Plan and OSHA's Laboratory Safety Standard (1910.1450) requirements. **English & Spanish.** 21 minutes. DVD

### **Laboratory Safety: The Finer Points** by DuPont

They say that practice always makes perfect. Through this program, seasoned laboratory employees can review safety techniques and general procedures they may have forgotten since their initial training. Based on OSHA 1910.1450, it covers: hazardous materials in labs, fume hoods, emergency showers and eyewashes, chemical storage, using chemicals safely. **English & Spanish.** 18 minutes. DVD

## **Safety Data Sheets: The Information Connection** by DuPont

If you don't know how to handle a substance properly, you could end up with chemical burns, breathing problems, fires or even explosions. Instead of guessing, employees should use the Safety Data Sheet, or SDS. This video covers each of the sixteen sections of the standardized SDS and how to obtain the pertinent information employees need when they need it. **English.** 17 minutes. DVD

## **LADDER SAFETY**

### **Ladder safety** by Wumbus Corporation

Dangers and safe use of various ladder types and portable steps. **Spanish.** DVD

## **LEAD**

**He's Not the Man I married...Could it be Lead?** by the California Department of Health **English & Spanish.** 17 minutes. DVD

### **Lead Safety: On the Job** by DuPont

This program helps your facility comply with OSHA's Lead in Construction Standard (1926.62). It examines the ways lead can enter the body, its symptoms and its effects. Protect yourself and your employees from dangerous lead exposure.

**English, Spanish & Portuguese.** 22 minutes. DVD

### **Lead! Treat it with Respect** by DuPont

This training program can teach your employees how to protect themselves from this dangerous material but still utilize leads abilities. Compliant with OSHA's Lead In Construction Standard (1926-62), the program covers: danger of lead hazards, how it enters the body, exposure limits, medical surveillance. **English & Spanish.**

17 minutes. DVD

## **LIFTING**

### **Back Safety for First Responders** by DuPont

While your EMTs, firefighters and law enforcement officers take care of others, you have to take care of them. To keep them healthy, lean on these solid safety techniques and exercises to keep their back muscles strong and flexible. **English & Spanish.** 20 minutes. DVD

### **Back Safety: Lift Well, Live Well** by DuPont

Employees of any age will benefit from protecting their backs now to avoid pain and injury later in life. Learn prevention techniques before pain and injury hurts operations and profits. This program shows: proper lifting & back basics, preventative steps & exercise, warning signs of injury. **English, Spanish & Portuguese.** 15 minutes. DVD

### **Back Protection: Defending Your Safety Zone** by DuPont

This video compares the rigors of professional sports with those of ordinary jobs in an effort to train your employees to grip safely and lift properly. Through dynamic, sport-themes, your employees will learn back safety measures presented in an engaging and interesting way. **English & Spanish.** DVD

### **Back Your Back** by Washington Department of Labor & Industries

**English.** 19 minutes. DVD

### **Elements of Back Care: General Industry** by CLMI

**English.** 14 minutes. DVD

### **Lifting Safely in Construction** by National Safety Compliance

Aspects of this training program include how the back functions, safest methods of lifting and prevention of back injury. **English.** 12 minutes. DVD

### **Sprains & Strains: A Public Concern** by DuPont

Show your employees how strains and sprains occur, how to recognize their warning signs and how to minimize them with proper posture, exercises and other simple adjustment. **English & Spanish.** 16 minutes. DVD

# LOCKOUT/TAGOUT

## **Controlling Hazardous Energy Sources** by CLMI Safety Training

This video explains the necessity of controlling hazardous energy sources using lockout/tagout procedures. This video covers the basics of lockout/tagout. **English.** 12 minutes. DVD

## **Electrical Safe Work Practices: Locking and Tagging** by Safety Shorts

Indirect or direct contact with energized equipment or circuits may cause electrical shock or other injuries. Before working on near live parts, isolate the energy source by following procedures for lockout/tagout. **English & Spanish.** 12 minutes. DVD

## **Hazardous Energy Source: Lockout/Tagout** by National Safety Compliance

This presentation explains the basic procedures, terminology and general requirements for Lockout/Tagout of hazardous energy sources. **English.** 10 minutes. DVD

## **Lockout/Tagout: Lighting in a Bottle** by Coastal

This video demonstrates the proper methods necessary to disable equipment, thereby preventing the release of hazardous energy. While your employees service or operate industrial machinery, it is imperative to adhere to workplace appropriate safeguards. **English, Spanish & Portuguese (subtitle).** 15 minutes. DVD

## **Lockout/Tagout: Make No Mistake** by DuPont

This video addresses OSHA's General Industry Standard for Lockout/Tagout. It will help your employees understand the seven steps of lockout/tagout, how to complete them and why they are important. It also covers the different forms of energy, safe practices for controlling hazardous energy and limitations of using tagout only. **English.** 17 minutes. DVD

## **Lockout/Tagout Safety** by Wumbus Corporation

Lockout/tagout is a procedure to resist hazardous energy and a system to protect against the accidental starting of equipment while maintenance or services are being performed. This program covers the elements needed in order to control hazardous energy and maintain the workers safe. **English & Spanish.** 13 minutes. DVD

**Lockout/Tagout (Vehicle Procedures)** by Atlantic Training  
**English.** 16 minutes. DVD

## **MACHINE GUARDING**

**Machine Guard Awareness** by Summit Training Source  
**English & Spanish.** 15 minutes. DVD

**Machine Guarding: Safeguard Your Future** by DuPont

Practically every machine has some sort of machine guarding – a shield, automatic shutoff or even a laser curtain to protect workers if a body part should come in contact with the machine. In fact, OSHA requires specific machines to have specific guards. Make sure your employees understand the importance of knowing about and using the machine guards meant to protect them. **English & Spanish.** 14 minutes. DVD

**Safe Operation of Scissors & Boom Lifts** by Comprehensive Loss Management, Inc.

Operating an elevator platform in an unsafe or improper manner can be very dangerous. This video shows the dangers of scissor boom lifts. It uses real-life examples. It also explains how to take care of the equipment and how to perform a workplace inspection to ensure the safety of the operators and pedestrians. **English.** 19 minutes. DVD

**Strung by-Back Over** by OSHA  
**English & Spanish.** DVD

**Strung by-Swing Crane** by OSHA  
**English & Spanish.** DVD

**The Sky's The Limit: Aerial Work Platform Safety** by The Associated General Contractors

This video highlights potential hazards associated with construction work performed on elevated platforms. **English.** 18 minutes. DVD

## MOTOR VEHICLE & DRIVING

### **Defensive Driving: When Good Weather Goes Bad**

This DVD will take you through the different seasons of driving, common hazards and how to avoid them, and how pre-inspect your vehicle. Topics include: snow, ice, heavy rain, hydroplaning, high winds, fog, and glare from the sun. **English.** 17 minutes. DVD

## OSHA

### **OSHA: An Introduction** by Coastal Training Technologies

The Occupational Safety and Health Administration (OSHA) was established to develop and enforce job safety and health standards. Introduce your employees to this agency and ensure that they gain a deeper understanding of its goals. This program explains OSHA standards, the inspection process, citations and penalties and your responsibilities as an employer. **English & Spanish.** 19 minutes. DVD

**OSHA: An Introduction for Construction** by Coastal Training Technologies  
OSHA standards can be tough, and if your company fails to meet them, it can be costly. Stock up on vital facts to get you through the rigid inspection process. This program provides you and your employees with information on OSHA, specific to the construction industry. More importantly, it gives you a crucial understanding of OSHA standards, inspection procedures and expectations, penalties and citations and company responsibilities. **English.** 19 minutes. DVD

### **OSHA 10-hour: Construction Industry** by OSHA

The OSHA Outreach Training Program for Construction Industry provides training for entry-level workers and employers on the recognition, avoidance, abatement, and prevention of safety and health hazards in workplaces in Construction industry. The program also provides information regarding workers' rights, employer responsibilities, and how to file a complaint. Through this training, OSHA helps to ensure that workers are more knowledgeable about workplace hazards and their rights. **English.** 10 hours. DVD

## **OSHA 10-hour: General Industry** by OSHA

The OSHA Outreach Training Program for General Industry provides training for entry-level workers and employers on the recognition, avoidance, abatement, and prevention of safety and health hazards in workplaces in general industry. The program also provides information regarding workers' rights, employer responsibilities, and how to file a complaint. Through this training, OSHA helps to ensure that workers are more knowledgeable about workplace hazards and their rights. **English.** 10 hours. DVD

## **PERSONAL PROTECTIVE EQUIPMENT**

### **Personal Protective Equipment: Awareness and Attitude** by Wumbus

Personal protective equipment is the best way to protect your health and safety. Goes over the different types of personal protective equipment, their purpose, when and how to use them safely. **English & Spanish.** 9 minutes. DVD

### **Personal Protective Equipment: Win the Race to Safety** by DuPont

Step on the safety pedal and pull away from the dangers. In this program, NASCAR star Bobby Labonte compares auto racing dangers with common industrial hazards and discusses the facts on PPE, including safe use and maintenance, total body protection and hazard assessment. **English.** 19 minutes. DVD

### **Remember Charlie** by Phoenix Safety Management, Inc.

Charlie's journey from death's door following a refinery explosion, to his position as the world's leading presenter on why we all should follow safety procedures precisely. The shortcut he took from standard procedures resulted in Charlie being burned over 50% of his body. Charlie drives home the importance of following safety procedures. **English.** 1 hour. DVD

## **RESPIRATORY PROTECTION**

**Respiratory Protection: Another World** by Coastal Training Technologies  
*Respiratory Protection: Another World* discusses how lungs work, respiratory hazards, types of respirators, emergency use of respirators, respirator fit testing, respirator maintenance, inspections, decontamination, and storage. This training course specializes in helping your workplace comply with OSHA 1910.134.  
**English, Spanish & Portuguese subtitles.** 18 minutes. DVD

**Respiratory Protection: A Breath of Fresh Air** by Coastal Training Technologies  
Airborne hazardous substances may be lethal, but the dangers can be eliminated. This DVD will help you comply with OSHA's Respiratory Protection Program (1910.134) and its requirements: written program, respirator use, selection and maintenances, fit testing, seal check, breathing air quality, medical evaluations for the eligible and emergency procedures. **English, Spanish & Portuguese subtitles.** 19 minutes. DVD

**Respiratory Protection Training Videos** by OSHA  
**English & Spanish DVD**

**The Respiratory Protection Program: Employee Training** by CLMI  
Exposure to hazardous chemicals in the form of dusts, fumes, mists and gases may cause lung damage, cancer and other serious ailments to vital organs and the central nervous system. To protect you from these adverse health effects, your company has established a written respiratory protection program in accordance with OSHA's Respiratory Protection Standard. This program, which is available for employee review, outlines the measures taken by your employer to ensure the health and safety of your respiratory system. This video shows employees how this plan works to protect them from respiratory hazards. Topics include employee medical evaluation, respirator selection and assignment protection factors, various types of respirators, hazards of IDLH atmospheres, qualitative and quantitative fit tests, user seal checks and cleaning and storage of respirators. **English.** 16 minutes. DVD

## **SAFETY 7 HEALTH (GENERAL)**

**29 CFR 1910 OSHA General Industry Regulations** by OSHA  
**English.** DVD

**Emergency action plan: The Team Approach** by DuPont

This program outlines what a proper Emergency Action Plan (EAP) should include, responsibilities of different parties, basic emergency plan procedures, the communication center and the importance of preparation and practice. **English.** 18 minutes. DVD

**Employee Involvement: The Key to Safety** by DuPont

*Employee Involvement: The Key to Safety* shows how employees can immerse themselves in good housekeeping practices, safety inspections and incident investigations. It looks at effective ways employees can have their voices heard by communicating their safety concerns as individuals and as part of a safety committee. **English, Spanish & Portuguese subtitles.** 18 minutes. DVD

**For What?** by The Training Network

Charlie Morecraft, the world renowned safety motivational speaker, has created this new video that is sure to have a tremendous impact on your employees. Expanding on his message that safety is about going home at the end of the day, kissing your wife, and hugging your kids, this compelling video recounts several stories that are close to Charlie's heart, each of which are designed to drive home a single point to your employees - think before you act and remember those at home who love you. **English.** 13 minutes. DVD

**NIOSH Safety Checklist Program for Schools and Other Safety Databases** by NIOSH

Recommendations on establishing a school safety program. Regulations Safety checklists, such as: Safety and health plan, indoor air quality, toxic chemicals, general classroom conditions, emergency procedures. **English** DVD.

**Safety Orientation On Alert** by DuPont

This innovative program allows you to choose the new-hire training program that best meets the needs of your facility. Eight training segments are available, each covering a core compliance issue. Eight-segments: Slips, trips and falls; Hazard communication; PPE; Fire safety; Back safety; BBP; Lockout/tagout; Evacuation. **English & Spanish.** 25 minutes. DVD

**Safety, Everyone's Responsibility!** by Phoenix Safety Management, Inc.

Safety, Everyone's Responsibility! This presentation highly motivates workers and management to work as a team and not as adversaries, ultimately creating a safer work environment. Once you've seen Charlie, you'll ask him to return. Safety – Everyone's Responsibility is the powerful follow-up to Remember Charlie. **English & Spanish.** 19 minutes. DVD

**Superintendent/Supervisor Safety Responsibilities** by National Safety Compliance

This program assists supervisors in understanding their responsibilities, legal liabilities, potential exposure and improving supervisor's safety performance on the job. **English.** 12 minutes. DVD

**Teen Teaching Teens: Food Service Safety Tips** by Workplace Safety Video Training Program

**English.** 10 minutes DVD

**Teen Workers: Real jobs, Real Risks** by Washington State Department of Labor and Industries

Gives teens essential information about their rights and responsibilities on the job. One teen tells of her life changing serious injury from her first job. A must see for all working teens. Permission is granted to duplicate this tape in its entirety only for non-commercial purposes. **English & Spanish.** 14 minutes. DVD

## SCAFFOLDS

**A Basic Look at Scaffolds for Compliance Officers** by Scaffold Industry Association

This video looks at some of the most commonly used types of scaffolds, associated hazards, and erection procedures. **English.** 18 minutes. DVD

**Basic Rigging and Operating Procedures for Suspended Scaffolds** by Scaffold Industry Association

**English.** DVD

**Guidelines for Boom Type Aerial Platforms** by Scaffold Industry Association

**English.** DVD

**Mobile Scaffolds** by Safety Shorts Production, Inc.

**English.** DVD

**Putting It All Together: Scaffold Safety** by The Associated General Constructors of America

This video was developed to train construction workers how to safely erect and dismantle scaffolds. **English.** 15 minutes. DVD

**Rolling Towers: Mobile Scaffold** by The Associated General Contractors of America

Describes how to safely build and dismantle mobile scaffolds. Educates construction workers on how to work safely on mobile scaffolds. **English.** 13 minutes. DVD

**Safety Guidelines for Framed Scaffolds** by Scaffold Industry Association

Common procedures for erecting, using and dismantling scaffolding equipment.

**English.** 18 minutes. DVD

**Safety Guidelines for Scaffold Planks** by Scaffold Industry Association

**English.** DVD

### **Scaffolding Safety: Safe Work Practices** by Summit Training Source

This program is ideal for all employees who work on scaffolds, and for those who erect and dismantle them. Properly erected scaffolds provide a safe elevated work surface to efficiently perform tasks when ladders or other lift devices are not feasible or practical. Safe Work Practices demonstrates best safety practices, outlines potential hazards, and creates awareness your employees won't soon forget. Training your employees the safe way to work on and around scaffolds keeps them safe and more productive; this provides you a direct return on your training investment. The program addresses: electrical, fall and falling object hazards; load carrying capacity and material handling; using ladders; good housekeeping strategies. **English & Spanish.** 13 minutes DVD

### **Scaffolds: Safety at All Levels** by DuPont

Every year, 4,500 injuries and 50 deaths are caused by scaffolding mishaps. This is the reason OSHA recently revised its scaffold standard. Be sure your workers are familiar with the most up-to-date OSHA requirements and that they know how to stay safe with this essential program. It covers: requirements of 1926.450-454; the role of the competent person; pre-assembly inspection; assembly; pre-shift inspection; safe work practices; fall protection. **English & Spanish.** 19 minutes. DVD

### **Scissor and Boom Lift Safety** by DuPont

Any individual that utilizes scissor and boom lifts should be familiar with their intended uses and the common hazards associated with each lift. This video covers the proper training, hazards, inspections, and general safe work practices that employees should use when working on or around these vehicles. **English.** 9 minutes. DVD

### **Stationary Scaffolds in Construction** by DuPont

This vital program discusses how to work safely on and around stationary scaffolds to avoid falls. The video goes over hazards and safe work practices. **English & Spanish.** 13 minutes. DVD

### **Tube & Clamp** by Scaffold Industry Association

Prep-plan, erection, and dismantling. **English.** 19 minutes DVD

## **TOOLS, HAND & POWER**

### **Compressed Air Safety** by CLMI Safety Training

This video stresses the importance of working safely with compressed air to prevent injuries. Featured are four workplace incidents that illustrate the fact that compressed air hazards are often not easily recognized but still can have tragic consequences. Topics include dangers of cleaning with compressed air, how compressed air can injure the human body, use of hearing protection in noisy environments, inspection and maintenance of compressed air equipment and components of compressed air systems. **English.** 15 minutes. DVD

### **Hand and Power Tool Safety** by National Safety Compliance

Designed for all employees who use hand and power tools, this program places emphasis on individual responsibility, equipment care and safety rules relating to this equipment. **English.** 13 minutes. DVD

### **High Impact** by Department of Labor and Industry

This video covers the following topic: chainsaw leg protection; eye protection; lead in construction; forklift pedestrian safety; stay in the cage. **English & Spanish.** 38 minutes. DVD

### **Powder Actuated Tools** by National Safety Compliance

This program describes the equipment, safety procedures, types of loads, potential hazards and the safe operation of powder actuated tools. **English.** 10 minutes. DVD

### **Tools, Hand & Power** by Power Tool Institute, Inc.

Este video cubre los temas: Accidentes con herramientas: pueden prevenirse; Seguridad con la sierra circular; La mesa vio: la seguridad; y Seguridad para la sierra angular. **Spanish.** DVD

### **Working Safely with Hand & Power Tools** by CLMI Safety Training

This video covers safe use of hand held tools. Viewers will learn safe procedures for using wrenches, pliers, hammers and saws. Viewers will also learn about what personal protective equipment should be worn while using different tools. **English.** 17 minutes. DVD

## **WORKPLACE VIOLENCE**

### **I Could Have Saved A Life That Day** by CLMI Safety Training

This video tells the story of an employee who failed to take action when witnessing the warning signs of impending workplace violence. His decision to look the other way not only ended in the senseless death of a co-worker, but also resulted in a fellow employee spending the rest of his life behind bars. Viewers will also see how the behavior of other key characters contributed to the escalation of events that led to the shooting. **English.** 15 minutes. DVD

### **Just another Day** by DuPont

Are your veteran employees getting complacent about safety? Do they skip the safety procedures at times assuming that since they've done something dozens of times, they can skip them without consequences? Stop this mindset from taking hold. This video will show your workers: the importance of staying focused; the danger of becoming distracted; why the proper use of PPE is essential; the risks of getting complacent; why safety procedures must be followed at all times. **English & Spanish.** 25 minutes. DVD

### **Office Safety: It's a Jungle in There** by DuPont

Every year, about six million people get hurt at work. And more than 400,000 are just like your employees...they work in offices fraught with hidden and tricky dangers. This program shows how to cope with the risks so that your workers can negotiate their way safely around the dangerous jungle that is the office. Covers the following topics: preventing injuries at workstations; controlling dangers of fire, electricity and hazardous materials; formulating emergency plans. **English & Spanish.** 19 minutes. DVD

### **Sexual Harassment: Is It Me?** by National Restaurant Association

**English & Spanish.** DVD

### **Threat Detector: Your Role in Preventing Workplace Violence** by CLMI Safety Training

This video program is a terrific means for training your employees on how to recognize threats in the workplace--before these threats lead to violent acts. You will be shown what threatening behaviors are and the red flags that may indicate the potential for future violent acts. The program includes a detailed instructor guide and 5 scenarios for classroom discussion. **English.** 17 minutes. DVD

### **Violence On The Job** by NIOSH

This video discusses practical measures for identifying risk factors for violence at work, and taking strategic action to keep employees safe. It is based on extensive NIOSH research, supplemented with information from other authoritative sources. **English.** 21 minutes. DVD

### **Working With Stress** by NIOSH

Describes workplace factors that can create or exacerbate worker stress, and suggests practical measures for reducing job-related stress through changes in work organization. **English.** 18 minutes. DVD

### **Workplace Violence: The Myth and the Mystery** by CLMI Safety Training

This presentation will dispel any myths surrounding workplace violence and will provide the information that every worker needs to know to remain safe among their coworkers. Viewers will learn how to identify the common warning signs of a situation on the brink of danger. Focus is placed on prevention of negative incidents through positive actions, awareness and effective communication. **English.** 15 minutes. DVD

## WELDING

### **Welding Safety by Summit Training Source**

Welding Safety teaches employees to recognize and respect the potential hazards and motivates them to use best safety practices to prevent property damage and injury. This DVD includes a facilitator guide. **English & Spanish.** 14 minutes. DVD

### **Welding Safety: High-Impact by CLMI Safety Training**

This video uses graphic examples to show the necessity of following safe welding and cutting procedures. It covers fire prevention through management of combustible materials, sparks, and use of fire watches. It also discusses the proper personal protective equipment and ventilation needed for welding. **English.** 19 minutes. DVD

### **Welding: Safe Work With Hotwork by DuPont**

In hotwork operations, safety is a burning issue. But through this program, you can cool down the risks and torch the dangers. It details various types of welding and corresponding vital precaution: personal hazards; hazardous fumes and substances; equipment safety. **English, Spanish & Portuguese.** 16 minutes. DVD
